

## COMPANY POLICY

SESTA is a historic company, strongly present in the market sector which is fully recognized for its quality and attention to product innovation.

SESTA is aware that a responsible economic strategy, attention to its production processes, consideration of environmental aspects and climate change are essential for its success and that of its customers.

The company's commitment to continuous improvement and product innovation is therefore reconfirmed, always keeping a high focus on sustainability.

These directional objectives are achieved:

- ensuring that the activities are carried out in compliance with the current legal provisions in terms of quality, environment and safety of workers
- maintaining the ISO 9001 and ISO 14001 certified management systems also through the systematic monitoring of the indicators of its processes to guarantee the satisfaction of customers and interested parties
- providing a high level of quality and safety of products at a fair quality-price ratio
- implementing an effective relationship with suppliers for a common growth in product skills and attention to the environment
- Committing to promoting effective communication aimed at accommodating the needs and expectations of all stakeholders through involvement, information and training
- implementing every reasonable effort in organizational, operational and technological terms to prevent water, air and soil pollution and minimize the consumption of energy, water, energy and the production of waste, favoring its recovery where possible and thinking from a life cycle perspective
- defining environmental objectives and targets to be integrated with SESTA's operational management and development programs.
- ensuring that this policy and its management system are understood, implemented and maintained at all levels of the Organisation and that the system is supported by regular and systematic education and training activities
- disseminating this document to all staff and making it available to interested parties by publication on the SESTA website
