Carina

Design: GIOVANNI BACCOLINI

The color conforms to MEC and fire retardant CL1

Produced in 13 colors, Carina is available in **65% recycled material, is fireproof to CL1, and MEC compliant**. With the same characteristics and compliance, Carina is also available in an **outdoor version** in some models (4-legged frames with/without armrests and stool) after treating the plastic parts with UV-resistant additives and the metal parts with cathoresis pre-treatment and treatment with polyester paints for outdoor use.

Carina is MEC compliant and CL1 compliant also in the **OUTDOOR version** and is also available in a **COLOR version**, with the frame in the same color as the shell; the same color is also available for the frame of the OUTDOOR tables (see Tables series).
